Sanitary Board Launches Rigid Economy Policy

Purchase of Twenty Acres Adjacent to Plant Agreed Upon

Directors of the Truckee Sanitary Board meeting Tuesday evening decided as the first step in their economy program to dispose of surplus equipment, to make necessary repairs and improvements at lowest possible costs and postponed plans for a bond issue until a well defined method of operation can be worked out.

Supervisor H. G. Loehr met with the board and explained various phases of operation relative to securing public money and other details which have puzzled board members.

Purchase of 20 acres of the Joe Joerger land adjacent to the disposal plant at $20 an acre was agreed upon as the board sought ways and means of eliminating the pollution problem which has hounded them for years. Replacement of the pipe across the Truckee River was also decided upon, but enlargement of the service system and other major projects were tabled pending a complete survey and study of all angles.

Reduction of the present high assessment against property to secure tax money was also agreed upon as the members attempted to get the district on a sound financial footing. Demands by the pollution board and state health officials will be met if possible without burdening the property owners with excessive costs.

First Woman Files Petition On PUD Ballot

Directors Favor Bond Issue To Finance Future Development

With March 22 the last day for filing petitions as candidates for the two vacancies on the board of directors of the Truckee Public Utility District, only one petition has been filed, according to Manager C. Edmunds.

That was the petition of Mrs. Ametta Firpo. Neither of the incumbent directors, E. L. Loynd, president of the board, nor B. W. Reynolds have thus far filed, although both have indicated they will serve if elected. Loynd has said he will serve only if elected as a write-in candidate, while Reynolds has not definitely decided.

Mrs. Firpo is a well known business woman and fully acquainted with the needs of the district and is the only woman who has ever filed for an office on the district board.

At the meeting Tuesday evening, the directors discussed future plans for the district with emphasis on a bond issue to care for the growing community and consolidate the three present water systems under a single operation. They also favored a further consolidation of other boards in the area to promote a more uniform and centralized government. This step would include the fire, sanitary, cemetery and other districts.

Bonds vs. a tax was discussed and the board went on record as favoring a bond issue to cover improvements and expansion in both the electrical and water departments. One definite fact was accepted and that was that one or the other must be adopted if the district is to continue to expand and give service required. While machinery has been set in motion to provide a tax upon the district, board members favor the alternate bond issue which, if approved, will guarantee sufficient money to do the required work and payment can be extended over a long period rather than a heavy tax which will not provide the cash needed.

School Begins Public Relation Study Series

The first of a series of planned sessions for the study of community-school relations in the Tahoe-Truckee Unified School District was held at the Truckee Elementary School Friday and Saturday, March 9 and 10. Dr. Theodore Britton of Sacramento State College was present to direct the study.

The purposes of such a course were explained by Everett V. O'Rourke, district superintendent, as follows: improving understanding between teachers and parents, improving communications between parents and teachers through report cards and interviews, helping faculty understand the community and its needs, using community-school relations wisely.

Dr. Britton gave a brief history of school planning and results of similar studies in school-community relationships eleswhere.

The 30 educators and parents who attended the meeting suggested goals for the project. From these various committees were formed as phases of the major topic. The investigating committees and members are:

Reporting to parents: Miriam Gunter, Betty Miescke, Patricia Adams.

"Three R's": Dorothy Rose, Arthur Eve, Irene Oetjen, Irene Englehart, Charles Chubb.

Community resources: Thelma Finger, Erma and Bill Smisek, Norman Dewhurst, Kay Wing.

Recreation in community: Bill Carrico, Ernest Douglass, Gladys Bryant, James Brehler, Ulah Brown.

Planning high school curriculum: Robert Briggs, Vi Pomin, Virginia Angelo, Laura Wilson, Zula Rablin, Ardell Bottel.

Informational panel: William Quinn, Henry Sams, Janet Briggs, Janet Landfears, Lynn Kishbaugh and O'Rourke.

The group enthusiastically urges all interested persons to attend the second meeting of this series to assist with their ideas and suggestions. by Walter M. Barrett

It is unfortunate that malicious gossip finds such fertile ground through repetition that reputations are shattered while praise of a person is seldom spread and generally discounted. It is our opinion that thorough investigation should be made before a story attacking a neighbor's character is repeated and allowed to become public scandal. We are all inclined to believe the worst of a person when it should be just as easy to look for and talk about his good qualities, if we are going to talk about him at all.

The sanitary board, in deciding against a bond issue at this time, is following a wise course. Instead, the members will make a complete study of plans, do the most necessary things at the lowest cost, reduce existing high taxes, liquidate unnecessary equipment and follow an economic course until the program is definitely decided upon and then proceed on a sound, well planned and businesslike basis.

SEXTON TO HEAD OBSERVANCE OF SCHOOLS' WEEK

Truckee, Lake Tahoe and Donner Summit will take part in the 32nd annual observance of California's Public Schools Week to be held April 23 to 27, according to Nate P. Sexton, chairman, for Truckee Lodge No. 200, F&A Masons.

Public Schools Week was instituted 32 years ago in order to provide an opportunity for parents and others to visit their schools and ecquaint themselves with the work being done. The Governor proclaims the week and both state and local school authorities join in the undertaking. More than 600 citizen committees throughout the state this year are cooperating with their local school officials in the observance.

It is the work of the citizen groups to develop public interest in the local school programs in order that the fullest possible attendance on the part of the public may be organized. According to Sexton, the details for an extensive program for the week are now being developed and an announcement of details will be made shortly.

SWANEE'S TAHOE LETTER

Tahoe City, March 12

Dear Tahoeites:

Summer has surely jumped the gun these last two days, which have been heavenly.

Had Mrs. Jeannette Mitchell of Sutter as my weekend guest and we enjoyed one of Mario's grand dinners at Cal-Vada Lodge on Wednesday night. Despite a quiet season, the resort is staying open and they say business is even picking up a little. On Thursday, with son Jimmie, we motored to Reno and were the overnight night guests of daughter Marie and family (Mr. and Mrs. Bill Steenis). On Friday we came home by way of Carson and visited the Nevada legislature in action. Jeanette took off for home that evening as storm clouds over Donner indicated inclement weather moving in.

Hear Mrs. Pete Ables has just returned from a visit with her husband at San Diego Navy base. He has completed his motion picture operators' course and another two over the past three weeks and is now a member of the crew of an LST manual rocket ship. The craft on which Pete is stationed belongs to the Atlantic Fleet and he is due soon to leave for a cruise. Then, while the ship lies in dry dock, Pete just may be able to spend a couple of weeks with his bride, the former Ditty Bolton.

The latest news from Al Storz, fiance of Miss Shirley Flagg, daughter of the John Flaggs, is that he is now stationed at Scott Field, Illinois, and has made the medics; his desire to become a pharmacist now on its way to becoming a reality. Shirley, who visits frequently at the Flagg home in Tahoe Park, on Friday last was pledged to Gamma Phi Beta soroity at University of Nevada.

Hear the Wayne Poulsens are back at Squaw Valley for the season and brought along a new little son, their fourth, born in a peninsula hospital on January 15. The little man weighed in at 7 pounds 3 ounces and has been named Eric Jeffrey.

Understand the past weekend saw heavy traffic troughout the Lake Tahoe region, with some resorts filled to capacity. At times autos were reported moving bumper to bumper.

Those who attended the combined art and music program presented at Tahoe Lake school on Sunday afternoon reported the affair most entertaining and enjoyable. Robert Briggs and Ernest Douglass, who sponsored the event, may well be proud of their students who presented an excellent musical program and authored a large selection of artistic subjects which won high praise from visitors. The hope was voiced by many that more of these programs will be presented from time to time.

Didn't get to attend the Auburn Ski Club's Cisco meet but understand from those who were there that the weather was hot and a shady tree came in handy. Lake Tahoe Ski Club's Lewis Fellows again came in first in D class jumping and Fred Holt took first in C. Jim Morhain had bad luck on Saturday while practicing jumping when he suffered a bad fall and heard his right knee "pop" loudly. He went to the doctor's later but I did not hear the verdict. On Friday he injured his left leg when the tips of his ski poles inflicted several bad gashes during a fall. Heard his rival, Kenneth Immer of the Auburn Ski Club had to be rushed to the hospital one day last week when he suffered a heavy loss of blood from nose bleed.

Just a reminder that next weekend, March 17 and 18, are the dates for the junior four-way ski meet at Olympic Hill. There is no admission charge, so come and bring the family. Jumping starts at noon Saturday with the cross country scheduled for 3 p.m. Sunday at 10 a.m. slalom races will be run and downhill will start at 2 p.m. Award will also be made of the Baker trophy for the novice event, for youngsters 12 or under belonging to the the

GIRL SCOUT WEEK

—by Lee Rich and Judy Loynd

Monday, March 12, was the 39th birthday of the Girl Scouts of America. Although Monday was the real anniversary, the Girl Scouts wore their uniforms all through the preceding week. The Girl Scout troop of Truckee has been organized for about six months. They are making sewing boxes. Most of them are collecting pennies so they can complete a book of Lincoln head pennies that runs from 1909 to 1940. They have to get one from each mint before the book is complete. The mints are S for San Francisco, D for Denver and no mark for Philadelphia. All of the Girl Scouts have hobbies; some of them are rocks, coins, stamps, flowers, bottles and there are many others. The Girl Scouts have lots of fun at their meetings. Mrs. Pedley is troop leader.

Look what the Smart Money's buying

Now that the 1951 offerings of the motorcar industry have had a chance to strut their stuff, we ask you—can there be any doubt which is the really smart buy?

If you want a "new look"—Buick has it. That sturdy push-bar forefront says "1951" to all who see it—and provides unsurpassed front-end protection to boot.

If you want power that you can live with through many moons to come—Buick has that too. Years of expert engineering have made Buick's thrill-packed Fireball engine just about as dependable as a power plant can be.

If you want features that combine present pleasure with long-time durability, consider this:

Buick's level-going ride stems from coil springs on all four wheels which are virtually break-proof and never need servicing.

Buick's Dynaflow Drive* takes the strain out of every mile of driving—and pays off by eliminating any need for friction clutch repairs and replacements, by reducing engine and transmission upkeep, and lengthening life of tires.

*Standard on ROADMASTER, optional at extra cost on other Series.

No other car provides all this:

DYNAFLOW DRIVE — saves strain on driver and car
FIREBALL POWER — high-compression, valve-in-head engine gets more good from every drop of fuel
PUSH-BAR FOREFRONT — combines smart style and unsurpassed protection
WHITE-GLOW INSTRUMENTS—greater clarity at night
4-WHEEL COIL SPRINGING — cushions ride, saves servicing costs
TORQUE-TUBE DRIVE—steadies ride, improves driving control
DUAL VENTILATION — outside air fed separately to right or left of front compartment
SELF-ENERGIZING BRAKES — hydraulic—multiply pedal-pressure five times at brake drum
DREAMLINE STYLING—tapered, car-length fenders, gleaming sweepspears on most models
Plus: Self-locking luggage lid, StepOn parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poised engine mounting, Body by Fisher

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

If you want room and comfort and handling that make any trip a breeze—there's no simpler way to find them than to take over a '51 Buick SPECIAL, SUPER or ROADMASTER—relax and enjoy yourself.

And if you want all this at a minimum outlay of dollars—one look at Buick prices will settle this point.

So the smartest thing you can do is get in touch with your Buick dealer. How about doing that right now?

Equipment, accessories, trim and models are subject to change without notice.

Re-routing Long Distance circuits—one of the many interesting, vital jobs for women in the telephone business.

THE GIRLS BEHIND EACH TELEPHONE "HELLO"

Theirs are important jobs—and they do them well

1. **Here's one business** where the spotlight's really on women. Because of the nature of telephone work, nearly two out of every three telephone people are women—a high percentage. And they must be capable, well-trained women to handle your calls efficiently and serve you well in our offices. We train them, at our expense of course. And they earn good money in this important work.

2. **Practically every sort of job**—from accounting to teaching—can be found in our business. In addition to good pay, the girls have the security of the company-paid Benefit Plan and enjoy holidays and vacations with pay. All know they have a good chance to advance as their ability grows. Perhaps the best evidence of the importance of women to us is that hundreds have management jobs.

3. **It would be hard to imagine** work for women today more important than a job in our nation's telephone service. For now, more than ever, our country needs swift, reliable communications to help speed the job of defense. And it's reassuring to know that in these days of high prices on most everything, you still get a bargain when you buy telephone service. Here in the West, on the average, telephone rates are up less than half as much as the cost of living.

AREA SKI STARS SHINE BRIGHTLY IN MANY MEETS

Widely separated ski meets last weekend gave skiers from this area opportunities to display their talents to advantage against stiff competition.

The Auburn Ski Club's 21st annual tournament at Tunnel Mountain near Cisco found Chet Zoberski and Ronald Mangseth of Auburn first and second in Class A jumping, with Herb Copeland of Truckee third. Local skiers placed out of the running in Class B but in Class C Fred Holt was first and Cliff Dockham second, both from the Lake Tahoe Ski Club. Class D was a triumph for Lewis Fellows, followed by Leonard Fuson and Rex Donaldson, all of the Lake Tahoe Ski Club.

With Auto Supply—

Mr. and Mrs. Clarence Osburn and family plan to leave tomorrow for a motor vacation trip which will take them into southern California and other points of interest.

Truckee Woman Injured In Accident Near Verdi

Mrs. Helen Emerine of Truckee, employed at Heller's Variety Store, suffered back injuries in an accident on Highway 40 half a mile east of Verdi Saturday.

Officers investigating said Mrs. Emerine was a passenger in a station wagon driven by her husband, Melvin. Second car involved was driven by Henry S. Olshanski of Camp Pendleton, Calif.

The Olshanski car, following the Emerine vehicle, skidded and rolled over in attempting to halt when the first car slowed. Emerine also lost control of his car, which also overturned. Both vehicles were considerably damaged.

The injured woman was taken to Washoe Medical Center for treatment.

John McGlade, auditor for the school district, was a business visitor in Auburn Wednesday.
